THE STEWART PARLOR BARE-BURN ING STOVE.
The increasing demand for a first class and

reliable base-burning and self-feeding stove which has been pressing upon all stove dealers so much of late, has induced the inventor and manufacturers of the celebrated STEWART STOVES to turn their attention in that direction, and the result is the production of a stove which for beauty of design, economy in the use of fuel, capacity for heating, and completeness in all its operations, is unsurpassed by any stove now in the market.

Amount the advantages claimed are: Economy in the use of Fucl-This stove being designed to overcome the great objection which has been raised against most of the self feeders now in use, namely, the inordinate consump-tion of fuel. The Stewart Parlor Base-Burner being provided with a brick lined fire pot and complete gas burning arrangements, generates a steady and powerful heat, which by the use of the draft damper is under perfect control, so that the heat may be radiated to suit the tomperature of the room and a moderate or strong degree of heat thrown out as the will or pleasure of the operator may desire, thereby securing a saving of at least one third of the amount of fuel consumed in stoves which cannot be thus controlled.

Cheerfulness-This stove is provided with mica doors, arranged just above the fire box, and encircling almost the entire body of the stove. These doors are nicely hinged so that they can be opened at any time and the mics cleaned with the utmost facility, and when the fire is burning a steady and brilliant illumination is produced, thereby securing a cheerful-ness and comfort equal to that of an open grate

or hearth fire. Cleanliness - Being provided with a Patent Reversible Grate, which is easily shaken or dumped, and a large ash drawer in the base of the stove, no difficulty whatever is experienced from the escape of cinders or ashes into the

room while shaking or dumping the grate. Size of Coal-While in other base burners it has been found absolutely necessary to use only the smallest size of coal, this stove has been so constructed with its improved magazine and grate that the larger sizes of coal, ordinarily ourned in parlor stoves, may be used with the best results. This is an important advantage. as the larger sized coal is purer and produces i greater heat, and prevents the waste arising from so much fine fuel falling through the grate. This stove is offered to the public with the full belief that it contains better heating and economizing features than any other base burner now in use. Persons desiring a new stove are requested to give it a thorough examination and satisfy themselves that it is the best. I refor to the following persons who have the Stewart Parlor Base Burner in use: D. Thomas Loockerman, Mrs. Thomas Buins, T. D. Fendall, esq., Burke & Herbert, City Post Office and

others of our city-all of whom unite in recommending it. I keep also on hand a full assortment o WOOD and COAL STOVES. State of South Carolina,) Executive Dept. Columbia, June 19, 1867. Sit: I have made full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facilities with which you fitted the glass to my eye furnished me conclusive evidence of your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be very respectfully JAMES L. ORK.

Governor of South Carolina.

Portsmouth, Va., Dec. 1, 1865. Prof Bernhardt:-I owe you a debt of grati-tude for the benefit you have rendered me. For many years I have been accustomed to use glasses when reading or writing, and always with pain, more or less, to my eyes. You have relieved me from all inconvenience. I can now read and write for all hours without any pain, and can see objects distant and near through the same glasses with clearness and distinctness to which I would call the attention of the la that I have not experienced since my youth.
